

David Hoffmeister studied and applied *A Course in Miracles* intensively in his transformation of consciousness. His total devotion to awakening brought him to a point where he transcended the ego and identified with the Voice for God that had been directing him and speaking through him for many years. The joy and clarity that pour through David in these teachings are both an inspiration and a practical resource for all who sincerely desire spiritual awakening.

These and other Awakening Mind resources will be available at the workshops and retreats in New Zealand and Australia this February, March and April 2008. To request to have items mailed to you from the U.S., please email: [requests@awakening-mind.org](mailto:requests@awakening-mind.org)
